**Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences)** Maoan Han, Pei Yu

Dynamical system theory has developed rapidly over the past fifty years. It is a subject upon which the theory of limit cycles has a significant impact for both theoretical advances and practical solutions to problems. Hopf bifurcation from a center or a focus is integral to the theory of bifurcation of limit cycles, for which normal form theory is a central tool. Although Hopf bifurcation has been studied for more than half a century, and normal form theory for over 100 years, efficient computation in this area is still a challenge with implications for Hilbert's 16th problem.

This book introduces the most recent developments in this field and provides major advances in fundamental theory of limit cycles. Split into two parts, the first focuses on the study of limit cycles bifurcating from Hopf singularity using normal form theory with later application to Hilbert's 16th problem, while the second considers near Hamiltonian systems using Melnikov function as the main mathematical tool.

Classic topics with new results are presented in a clear and concise manner and are accompanied by the liberal use of illustrations throughout. Containing a wealth of examples and structured algorithms that are treated in detail, a good balance between theoretical and applied topics is demonstrated. By including complete Maple programs within the text, this book also enables the reader to reconstruct the majority of formulas provided, facilitating the use of concrete models for study.

Through the adoption of an elementary and practical approach, this book will be of use to graduate mathematics students wishing to study the theory of limit cycles as well as scientists, across a number of disciplines, with an interest in the applications of periodic behavior.

### **From reader reviews:**

#### **Maxine Lucas:**

Why don't make it to become your habit? Right now, try to ready your time to do the important behave, like looking for your favorite guide and reading a e-book. Beside you can solve your long lasting problem; you can add your knowledge by the reserve entitled Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences). Try to face the book Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences) as your pal. It means that it can to get your friend when you truly feel alone and beside those of course make you smarter than in the past. Yeah, it is very fortunated for you. The book makes you considerably more confidence because you can know everything by the book. So , we should make new experience along with knowledge with this book.

#### **Sanjuana Day:**

It is possible to spend your free time to see this book this guide. This Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences) is simple to bring you can read it in the area, in the beach, train along with soon. If you did not have got much space to bring often the printed book, you can buy the actual e-book. It is make you quicker to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

#### **Oliver Gerling:**

Do you like reading a book? Confuse to looking for your favorite book? Or your book had been rare? Why so many question for the book? But virtually any people feel that they enjoy for reading. Some people likes reading, not only science book but in addition novel and Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences) or others sources were given knowledge for you. After you know how the great a book, you feel would like to read more and more. Science publication was created for teacher as well as students especially. Those textbooks are helping them to put their knowledge. In additional case, beside science publication, any other book likes Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical Sciences) to make your spare time much more colorful. Many types of book like this one.

#### **William Hill:**

What is your hobby? Have you heard which question when you got pupils? We believe that that query was given by teacher with their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person similar to reading or as reading become their hobby. You must know that reading is very important and also book as to be the thing. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them are these claims Normal Forms, Melnikov Functions and Bifurcations of Limit Cycles: 181 (Applied Mathematical

Sciences).
