John Rowan

Ordinary Ecstasy: The Dialectics of Humanistic Psychology John Rowan

Humanistic Psychology ranges far and wide into education, management, gender issues and many other fields. *Ordinary Ecstasy*, first published in 1976, is widely regarded as one of the most important books on the subject.

Although this new edition still contains much of the original material, it has been completely rethought in the light of postmodern ideas, with more emphasis on the paradoxes within humanistic psychology, and takes into account changes in many different areas, with a greatly extended bibliography.

Ordinary Ecstasy is written not only for students and professionals involved in humanistic psychology - anyone who works with people in any way will find it valuable and interesting.
