A young boy traces his ancestry from his great-great-grandparents to his own family in the present day. But as in every family, there is more than one side to the story! From front to back, follow along as the boy links the relatives on his dad's side. Then, from back to front, begin again as the boy links the relatives on his mom's side. A mini-lesson in genealogy, this unique flipped story explores how generations can all be connected, playfully reflected through illustrations of recurring, inherited physical traits among family members.
