General Immunology

Edwin L. Cooper

General Immunology Edwin L. Cooper

General Immunology provides a general overview of the immune system. It presents topics in immunology from all living groups, treating cells, tissues, organs, and organismal levels of biological organization. The book contains 23 chapters organized into eight sections. Section I serves as an introduction to immunology—a science, a sketch of its history, some of its more recent contributors, something about gathering facts, immunology journals, and the entire biomedical enterprise of which immunology is just a part. Section II is devoted to antigens while Section III examines the immune system in chordates and the ontogeny of the immune system. Section IV on cells of the immune system covers monocytes, macrophages, the three granulocytic types, and mast cells. Section V deals with phagocytosis and the interaction of lymphocytes. Section VI is devoted to antigens in relation to antibody synthesis, antigen-antibody interactions, immunoglobulin structure, and immunoglobulin assembly. Section VII on organs of the immune system examines bone marrow, thymus, spleen, lymph nodes, and lymphoid aggregations. Section VIII discusses the evolution of the immune system.

This text was written for advanced undergraduates. However, its comprehensiveness makes it useful to immunologists and biologists at all levels as well as medical students and clinicians.

From reader reviews:

Ian Coghlan:

This General Immunology book is simply not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book will be information inside this publication incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This General Immunology without we recognize teach the one who examining it become critical in thinking and analyzing. Don't end up being worry General Immunology can bring if you are and not make your bag space or bookshelves' come to be full because you can have it with your lovely laptop even cell phone. This General Immunology having good arrangement in word and also layout, so you will not truly feel uninterested in reading.

Chester Grantham:

Precisely why? Because this General Immunology is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will jolt you with the secret the idea inside. Reading this book next to it was fantastic author who have write the book in such amazing way makes the content within easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you because of not hesitating having this any more or you going to regret it. This unique book will give you a lot of gains than the other book get such as help improving your talent and your critical thinking method. So , still want to delay having that book? If I were you I will go to the publication store hurriedly.

Melvin Hayes:

Playing with family inside a park, coming to see the ocean world or hanging out with close friends is thing that usually you could have done when you have spare time, and then why you don't try matter that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love General Immunology, you could enjoy both. It is excellent combination right, you still want to miss it? What kind of hang-out type is it? Oh can occur its mind hangout guys. What? Still don't understand it, oh come on its called reading friends.

Melissa Fernandez:

Reading a book to get new life style in this calendar year; every people loves to go through a book. When you go through a book you can get a lot of benefit. When you read books, you can improve your knowledge, simply because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, as well as soon. The General Immunology offer you a new experience in reading a book.
