Child Delinquents: Development, Intervention, and Service Needs

Rolf Loeber, David P. Farrington

Child Delinquents: Development, Intervention, and Service Needs Rolf Loeber, David P. Farrington

Between 1980 and 1996 the number of arrests has increased considerably for offenders ages 12 and under. This increase is a cost to society in two ways: the cost of the crime and the cost of multiple agencies involved with these children. Several questions have developed due to this increase: How does the juvenile justice system deal with child delinquents? Is child delinquency a predictor of serious, violent, and chronic offending? How early can we predict delinquency, and what are early warning signs?

Presenting empirically derived insights, **Child Delinquents**, is the definitive statement to date on the working knowledge with preteen offenders. This book is an excellent source for a broad audience of researchers, scholars, psychiatry, and practitioners at the administrative level.
