**Laborwerte im Beratungsgespräch: Patienten fragen - Apotheker antworten (German Edition)** Peter Findeisen

Mehr als 60 Prozent aller medizinischen Diagnosen werden heute von Laborwerten gestützt. Auch in vielen Apotheken gehört die Durchführung von Blutzucker-, Cholesterin- oder Blutdruckmessungen zu den Serviceleistungen. Für die Beratung der Patienten nach den Point of Care Testing (POCT) ist die richtige Interpretation der ermittelten Werte wichtig.

Das Buch liefert umfassende Erläuterungen zu den wichtigsten Laborwerten. Er beschreibt die Kenngrößen in Blut und Harn, nennt Gründe für ein Über- oder Unterschreiten des Normbereichs und interpretiert die Werte. Darüber hinaus werden weitere Untersuchungen wie z. B. Blutdruckmessung, Schilddrüsendiagnostik und Identifizierung von Tumormarkern erläutert.

Neun klinische Fallbeispiele schulen das Verständnis für das Zusammenspiel der Vorgeschichte des Patienten mit der aktuellen Symptomatik und der laborgestützten Diagnose.

Privat-Dozent Dr. med. Peter Findeisen ist Facharzt für Laboratoriumsmedizin und Apotheker.
