Here's the book for kids who love scary stuff, whether it's telling ghost stories around a campfire, discovering the origins of various vampires, monsters, and witches, or reading creepy tales under the covers with a flashlight.

Combining fact, fiction, and hands-on activities, *Frightlopedia* is an illustrated A-Z collection of some of the world's most frightening places, scariest stories, and gruesome creatures, both real and imagined.

Discover Borneo's Gomantong Cave, where literally millions of bats, cockroaches, spiders, and rats coexist—in pitch darkness. Learn about mythical creatures like the Mongolian Death Worm—and scarily real ones like killer bees, which were accidentally created by scientists in the 1950s. Visit New Orleans's Beaugard-Keyes house, where Civil War soldiers are said to still clash in the front hall. Plus ghost stories from around the world, a cross-cultural study of vampires, and how to transform into a zombie with makeup. Each entry includes a "Fright Meter" measurement from 1 to 3, because while being scared is fun, everyone has their limit.
