## **Liberty and Civilization: The Western Heritage (The American Spectator)**

An essential volume of essays commissioned by the American Spectator and edited by the philosopher Roger Scruton, *Liberty and Civilization* examines the intellectual and spiritual traditions of our belief in individual liberty, from its Judeo Christian origins on through Enlightenment philosophy. As we are confronted by belligerent atheism at home and jihadist Islam abroad, *Liberty and Civilization* is an invaluable tool for understanding why it is critical that we defend the cultural, religious, and intellectual institutions that have made our civilization great.

As one would expect from the American Spectator, the responses are both fiery and edifying, representing a broad swath of American conservative thought. The essayists include Paul Johnson, Anne Applebaum, Robert Bork, Robert P. George, Christina Hoff Sommers, and Roger Scruton.
