Mitigating the Effects of Road Construction on Sites of High Ecological Interest (TRL 375): Prepared for Quality Services (traffic Safety and Environment), Highways Agency (TRL Report) L. Chinn, J. Hughes, A. Lewis

This report describes a study which examined measures provided for the mitigation of adverse ecological effects of road construction on designated sites and protected species, and determined the extent of their success. In particular, the design and management of such measures was examined. This report describes each of the fourteen case study sites in terms of its ecological interest, the extent of the impact of road construction on the sites, the mitigation measures taken, and the success of these mitigation measures.
