Muscle Function Testing - A Visual Guide Karin Wieben, Bernd Falkenberg

This beautifully illustrated pocket atlas provides physical therapists, occupational therapists, sports therapists, and students with practical guidelines and quick tests for evaluating gross motor function throughout the body. The tests in this manual are particularly suitable for analyzing isolated muscle deficits and evaluating other testing methods. When used as a regular part of the physical therapy routine, manual muscle testing provides valuable information on individual treatment needs, enables the therapist to monitor progress and modify procedures, and allows the patient to see the results for themselves.

Key features:

- Almost 200 high-quality color photographs and illustrations help demonstrate each step in the testing process
- Quick tests for evaluating overall muscle function, followed by detailed guidelines for testing muscle function in the head and face, spine, and upper/lower extremities
- Detailed introductory chapter on the foundations and anatomical basis of muscle testing
- Clear descriptions of clinical symptoms for each muscle group, plus examples from practice
- Online access to assessment forms on Thiemes MediaCenter
- Test questions and answers for self-study

This book is a valuable resource for all PT practitioners and students that will enrich their practice and help them to successfully evaluate and treat patients suffering from muscle-related injuries.

Ernestine Pagan:

Reading a book tends to be new life style in this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world may share their idea. Books can also inspire a lot of people. Many author can inspire their particular reader with their story or even their experience. Not only situation that share in the textbooks. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on earth always try to improve their ability in writing, they also doing some analysis before they write to the book. One of them is this Muscle Function Testing - A Visual Guide.

Courtney Osteen:

As a pupil exactly feel bored to help reading. If their teacher requested them to go to the library or to make summary for some guide, they are complained. Just little students that has reading's heart and soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country.
