A controversial 100 thousand word guide into worlds you never thought to explore. Whitling offers straight talk about memetics with a twist: how to recognize your own malignant memes, how to free yourself with evolutionary concepts, relevance of demons and angels, what are your lifetime aims (and why you probably don't know), and what is at stake. To quote from its author: "My mind's filled with open cans of worms so I can induce others to go fishing." A cogent, in-your-face challenge to current perceptions about the universe and Evolution as Creation's first cause. Can he pull this off? Yes! Go with him down many paths to the same destination. The fiery end of human life on earth may not be from bombs or plagues. Learn about what NASA is keeping their eyes on while we distract ourselves with petty jousts. Recent scientific discoveries and theories help you develop a personal lifeplan for an accomplishment-oriented existence you will enjoy. Read it. See for yourself.
