How to Run

Alexis D. Smolensk

How to Run Alexis D. Smolensk

In forty years, the role-playing community has sorely lacked a savvy investigation of the art of DMing, targeted exclusively for the long-standing enthusiast. For the first time, we have a book that presumes the reader knows what a role-playing game is, and how it is played, wasting no time covering old ground. Instead, *How to Run* exhaustively examines how to present the setting, handle players, draw forth emotion, cope with information overload and make a world from the ground up, step-by-step and point-by-point. Alexis Smolensk hasn't written a dry, academic treatise of the game, he's written an empowering field guide for grognards seeking illumination. No serious campaigner should venture forth without this book in their backpack!
